

Connie Davis

Associate Director of Outpatient Services

Philosophy of Care

My approach to therapy is teamwork between myself and the client. We work on the symptoms, concerns that they want to address together.

Education and Certification

Bachelor's Degree from Western Illinois University's Board of Governors program; Master's degree in Social Work from Walden University.

Specialization

EMDR certified. I also enjoy working with children and their families.

A little bit about me...

My biggest interest is animals. I own a horse, Jake, and a mastiff, Maizee. I also enjoy reading, tennis, crocheting, knitting, and photography. I like to be busy; I'm not the type of person who can just sit around.
