

LeAnn Alexandria, MHP

Behavioral Health Clinician

Education and Certification

Bachelor of Science in Criminal Justice from Illinois State University.

Specialization

Children and families.

My Treatment Philosophy

I practice a very client-centered approach where the client's current needs are cared for. In doing so, the best treatment goals can be developed, solutions can be implemented, and change can occur. Taking time to foster the therapeutic relationship remains a crucial part of my approach.

A little bit about me...

I enjoy traveling, cooking, and spending time with family and friends! I have a passion for helping people and continuing education.
