

Trevor White

Recovery Support Specialist

Education and Certification

Dixon High School graduate.

My Treatment Philosophy

My approach to providing services is to adapt to ensure that the client is as comfortable as possible in order to provide the best care that I am capable of. I work with the client to provide the most effective care that I can whether that brings us to the river front, a local diner, or sitting in their living room.

A little bit about me...

In my free time I enjoy exploring different musical bands/artists, relaxing by a fire with my dog, and spending time with my girlfriend and her cat.
