

## **Kelly Gerber, BS, MHP**

Behavioral Health Clinician

---

### **Education and Certification**

Bachelors of Science in Psychology in addictions from Purdue University Global and Associates of Arts from Clinton Community College.

### **My Treatment Philosophy**

I am straight forward in approach as I am not one to sugar coat. I like to focus on client-centered therapies, cognitive behavioral therapies as well as a blend of mindfulness practices. Most importantly I believe whole heartedly that everyone deserves respect, kindness and to be treated with dignity.

### **A little bit about me...**

I enjoy playing pool, gardening, and plant collecting according to my husband. I also enjoy collecting Nightmare before Christmas items and creating seasonal trees.
