

Brooke Majeske-Dooley

BA, MHP

Pathways Coordinator

Education and Certification

Bachelor of Science in Psychology, Illinois State University, minor in sociology.

My Treatment Philosophy

I provide person-centered care with compassion, respect, and empathy. I build rapport through advocacy and reliability. My desire to empower others and to help them identify their strengths and accomplish their goals is reflective in my approach as well. I believe we as “helpers” provide hope to those we serve and they teach us perseverance.

A little bit about me...

I enjoy thrifting for vintage treasures, attending auctions and estate sales, and refinishing furniture.
