

## **Jennifer Dennis**

Care Coordinator

---

### **Education and Certification**

Bachelor of English and Creative Writing from Southern New Hampshire University with a minor in Literature. Currently pursuing a Master's in Mental Health Counseling, through Southern New Hampshire University.

### **My Treatment Philosophy**

Through evidence-based practice I provide a comprehensive approach to care. My work with people is strength based and client centered. This includes providing a nurturing, supportive, environment, meeting clients where they are, and identifying and using their personal strengths to improve areas that they are working on.

### **A little bit about me...**

I enjoy traveling, especially road tripping to places I have never been. I also enjoy sunny days and spending time outdoors, hiking, or just sitting on a park bench with a good view. I love reading and writing works of fiction and poetry.
