

## **Hannah Anderson, MHP**

Behavioral Health Clinician

---

### **Education and Certification**

Associate of Art degree from Kishwaukee College. Bachelors of Science in Psychology from Northern Illinois University. I am currently working toward my Master's in Clinical Mental Health Counseling at Liberty University.

### **My Treatment Philosophy**

I enjoy using a client-centered philosophy. I work with clients to develop skills and appropriate steps to take in order to reach their goals. I want clients to know my office is a safe space to be themselves and there is no judgement in my office.

### **A little bit about me...**

In my free time, I enjoy staying active. I play on a slow pitch softball team and enjoy hiking. I also enjoy hanging out with friends and family, and relaxing with my two dogs.
