Sarah Herebia, LSW, QMHP

School-Based Clinician

Education and Certification

Bachelors of Science in Psychology and in Rehabilitation and Disability Services from Northern Illinois University, Masters in Social Work from Aurora University.

Specialization

I primarily work with children and adolescents.

My Treatment Philosophy

I practice a very client-centered approach where I work in collaboration with clients to develop skills and build on their strengths to help them reach their goals. I strive to provide a warm and welcoming environment, so my clients feel safe and heard without the fear of judgment.

A little bit about me...

In my free time, I enjoy spending time with my family and friends. To unwind at the end of the day I am usually working on a puzzle. I also love to walk, bike, and bake. I continue to be a lifelong learner in this field.
