

Patrick McCue

SUPR Recovery Support Specialist

Education and Certification

Bachelor's degree from Illinois State University.

My Treatment Philosophy

I like to have an honest, straightforward approach with clients. I try to utilize nature during treatments whenever I can, as I believe it helps clients feel more relaxed and in tune with their feelings & emotions. I like to set goals with clients and help them work towards exceeding the goals that they set.

A little bit about me...

I am a singer/songwriter who has lived in Colorado, California, and Illinois throughout my lifetime. I also enjoy playing mandolin & guitar, playing baseball, frisbee golf, fishing, fossil hunting and reading a good book outside. I am also very proud of the fact that I have been sober since June 2014.
