

## **Casey Shook**

Recovery Support Specialist

---

### **Education and Certification**

Associates degree in Psychology from Sauk Valley Community College. I have the goal of achieving a Masters degree in Psychology, with a minor in counseling, from Western New Mexico University.

### **Specialization**

Substance use treatment and harm reduction.

### **My Treatment Philosophy**

I would like my clients to realize that they are all human and that means having imperfections. We all have unique talents and capabilities that make us amazing, sometimes we just need a push to truly recognize our potential.

### **A little bit about me...**

I LOVE fishing. I love finding time away from TV and computer screens. I also enjoy anything nerdy: Star Wars, comic books, Pokemon cards, you name it.
