

Mike White **LCPC, CADC**

Behavioral Health Clinician

Education and Certification

Bachelor of Arts in Psychology from Northern Illinois University and Master of Science in Clinical Mental Health Counseling from Walden University.

Specialization

I have worked with a lot with folks with addiction and with Dialectical Behavior Therapy (DBT). I am also EMDR trained.

My Treatment Philosophy

It really is a collaborative effort. The alphabet soup after my name might look kinda fancy, but the client is the expert on who they are and what they want. My task is to help them figure out how to reach their potential.

A little bit about me...

I like being outdoors (hiking, walking, gardening), woodworking, and listening to music or the Cubs on the radio.
