Specialization

Child & Adolescent Psychology, Social-Emotional Learning, Trauma-Informed Care

My Treatment Philosophy

There is a place and theory for everyone in counseling. My goal is to empower clients to navigate challenges and achieve meaningful change through providing practical tools for managing emotions and relationships in an environment where the client feels truly understood, supported, and valued.

A little bit about me...

I like to read, garden, and hike in my free time. My dog, Honey, and I are a certified therapy dog team, and we volunteer in our community to provide animal-assisted therapy to those in need.
