

Ashley Dober, MSW, QMHP

CST Clinician

Education and Certification

I earned my Masters in Social Work at Aurora University in 2024 along with my Bachelors in Social Work in 2023. I completed my specialized internship at KSB's Inpatient Behavioral Healthcare Unit.

Specialization

Acceptance and Commitment Therapy is a cornerstone of my approach along with elements of Solution Focused Therapy.

My Treatment Philosophy

I believe that the client is the expert and I see my role as someone who empowers them to write their story. I want to help you learn about your values, choose your goals, and support you along the way through education, collaboration, and compassion.

A little bit about me...

My son and I love looking for snakes, bugs, and trains, and going on road trips. I enjoy reading, riding my motorcycle, fixing my motorcycle when it breaks, cooking, battling invasive plants, and crocheting with my grandma.
