

Julie Kirchhoff, BA, MHP

Pathways Care Coordinator

Education and Certification

Bachelor of Arts in Psychology from Northern Illinois University.

Specialization

Children and families.

My Treatment Philosophy

I use a client centered approach to meet clients and families where they're at. I focus on client and family strengths and strive to see the whole person to help meet strength-based goals identified by the child and family.

A little bit about me...

My family and I love to camp and spend time together playing games and watching the Chicago Cubs. I love to cook, watch the Bachelor, and Hallmark Christmas movies.
