

Kaitlin Molaison, MHP

Youth CST Recovery Support Specialist

Education and Certification

Bachelor of Arts in Education from Fresno State University, California with a Multiple Subjects Teaching Credential.

My Treatment Philosophy

Creating a safe and nurturing environment for kids is key. My philosophy is to encourage my clients to embrace their strengths and understand their potential. It's all about fostering a sense of comfort, care, and empowerment. Everyone has a unique story that makes up the amazing person they are. I want all of my clients to believe in themselves and reach their potential.

A little bit about me...

I love video games, sports (*especially basketball and softball*), and arts & crafts. I am a huge Disney movies fan and binging shows on Netflix & Hulu. I have about 100 board games and card games. I love hanging out with my friends and spending time with my pets.
