

Bailey Stover

CST Recovery Support Specialist

Education and Certification

Graduated with an associate's degree from Kishwaukee Community College.

My Treatment Philosophy

My mission is to assist clients with recognizing their own strengths, understanding their recovery process and to realize that they are not alone in their struggles. Remember: life is like climbing a rock wall. You take one step at a time; each step represents a milestone in your life. Sometimes we may slip, but one may encourage us to not give up, to get over that next step and onto the next.

A little bit about me...

You can find me out on the motorcross track, any ball field or in the house baking. On other days, you might find me wrapped in a warm blanket, or sitting in a lawn chair reading a good book. I enjoy camping, hiking and visiting the beach with my children.
