

Kelly Gerber, BS, MHP, CADC

Behavioral Health Clinician

Education and Certification

Bachelors of Science in Psychology in addictions from Purdue University Global and Associates of Arts from Clinton Community College.

My Treatment Philosophy

I am straight forward in approach as I am not one to sugar coat. I like to focus on client-centered therapies, cognitive behavioral therapies as well as a blend of mindfulness practices. Most importantly I believe whole heartedly that everyone deserves respect, kindness and to be treated with dignity.

A little bit about me...

I enjoy playing pool, gardening, and plant collecting according to my husband. I also enjoy collecting Nightmare before Christmas items and creating seasonal trees.
