

Montana Mull, BS, MHP

Recovery Support Specialist

Education and Certification

I obtained my Associate's degree from Sauk Valley Community College, and my Bachelor's Degree in Early Childhood Education from Illinois State University.

Specialization

Children and families

My Treatment Philosophy

I would say that my treatment philosophy is person centered, and collaborative. I want the clients to have their treatment be what they need and want it to be for themselves. I enjoy listening to clients to discover what they need from me to help support them.

A little bit about me...

In my free time I enjoy reading, working out, and spending time with my friends and family. I also enjoy playing with my toy poodle named Kopper!
