

**Jessie Hutchison,**  
**BS, MHP, CWS**  
School Based Clinician

---

**Education and Certification**

Bachelor of Science in Human Services from Rasmussen University, Associates of Arts in Applied Science - Legal office from Sauk Valley Community College. Current graduate student at Aurora University studying Masters of Social Work.

**My Treatment Philosophy**

This work is especially important to me because of personal/lived experience. I believe in creating a safe space for all those ready and willing to make positive change for themselves and their families. I enjoy working with all walks of life and especially enjoy working with youth. I believe children simplify what adults often complicate due to their conditioning at no fault of their own.

**A little bit about me**

I live in Milledgeville with my husband, three daughters, and two puppies. I am often busy reading, studying and watching my children in their many extracurricular activities that include theatre, dance, volleyball, and softball.
